

The Behavior Plan

The Behavior Plan Tracking System in BlueStep is a comprehensive behavior management tool that allows for the identification and evaluation of behavioral symptoms. This instruction guide will walk you through the steps on how to create a Behavior Plan, collect required documentation and set your evaluation review reminder.

You can add a list of common behaviors that can then become an option to be attached to a residents individual Behavior Plan. To add these behaviors, navigate to Community>Community Record>Setup>Setup: Behaviors. Note: These behaviors can also be added one at a time while creating a Behavior Plan for a resident.

The New Entry button will allow you to create a list of common behaviors that you will have the option to add to a resident's behavior plan.

The Behavior Plan is found in the resident record under the Nursing tab as shown below.

- In a resident's record navigate
1. Nursing
 2. Behavioral > Behavior Plan
 3. New Entry

The Next Review Date can trigger notification to the staff when the next review is due. See training document "Set-Up Resident Warnings"

Add new behaviors. These behaviors then become available in the behavior drop down list.

Medications specific to a behavior may be identified and selected in the Intervention Medication section. This drop down will list all the resident's active medications.

PENDING INTERVENTIONS

Start Date: * 09/13/2018 Intervention: * Play soft music Complete: Staff Signature
End Date:
Status: Active

Completed by: Staff Signature

*** Required**

Add a single trigger, or multiple triggers to the behavior plan. As you complete a trigger, (by signing the staff signature), you will then see the "Add Trigger" button to add additional triggers.

Add a single intervention, or multiple interventions to the behavior plan as explained above with the triggers.

When behavior plan is complete, sign the "Completed By" signature and click the save button.

The completed behavior plan will be listed as an active behavior plan.
To create an additional behavior plan to be tracked, click the New entry button. Multiple behaviors can be tracked for each resident.

Behavior Plan Print PDF

Date	Behavior	Details	Next Review Date	Completed By	Edit	Delete
09/13/2018	Anxiety		10/04/2018	Nadean Larke, 09/13/2018 9:06:01AM	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>

Note: Once a Behavior Plan has been signed and saved you can still add new triggers or Interventions. You can also archive old triggers or interventions by entering an end date.

A new behavior tile can be activated in the Resident Warning module.

NURSING REVIEW

Reviewed By Nurse Signature

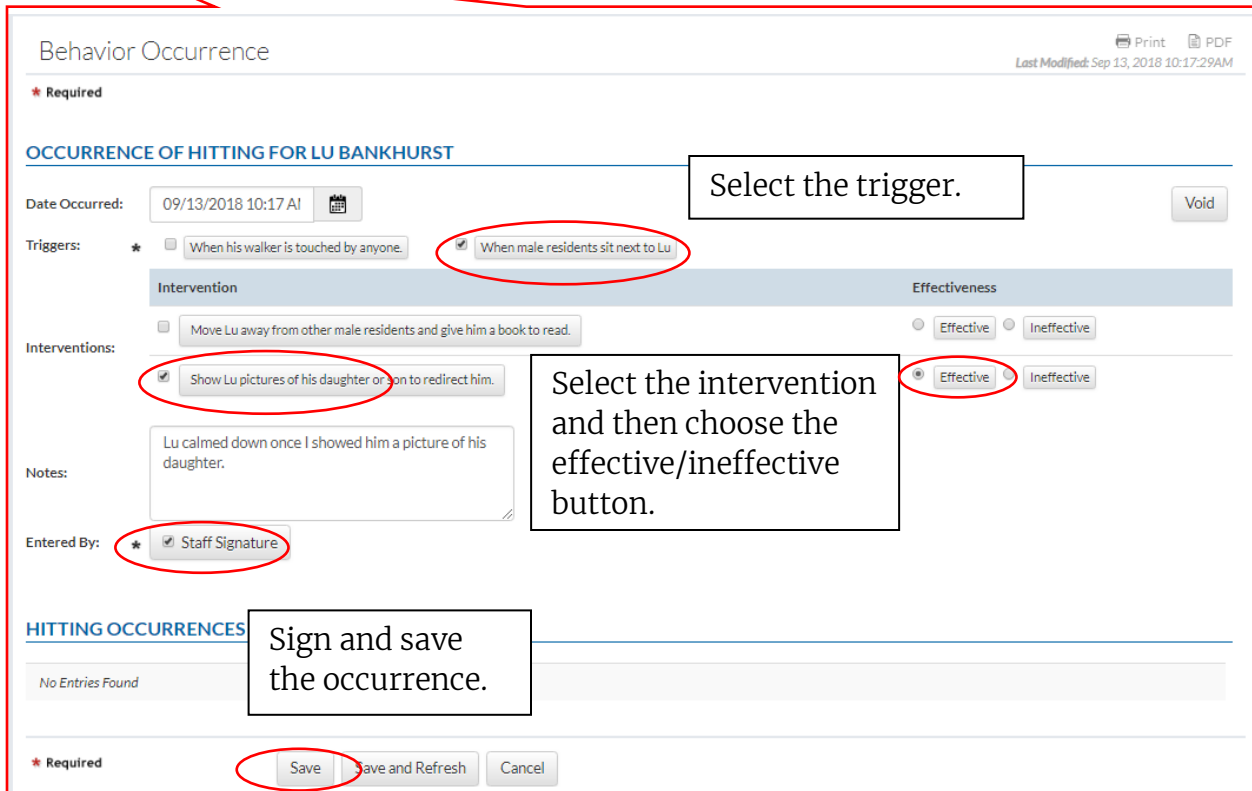

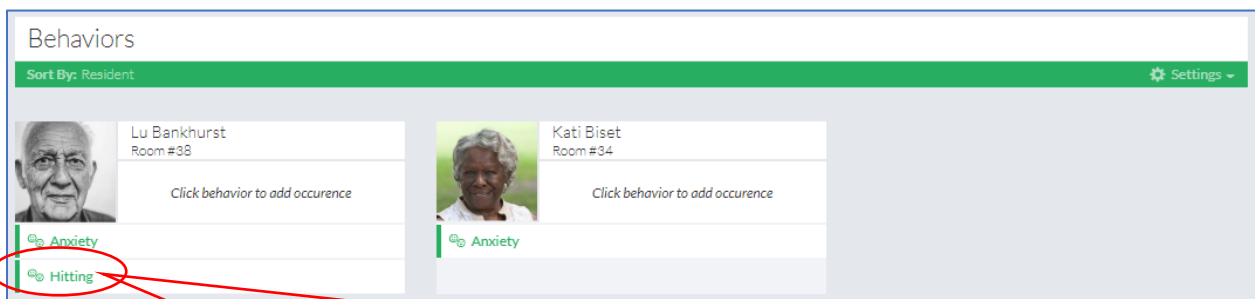

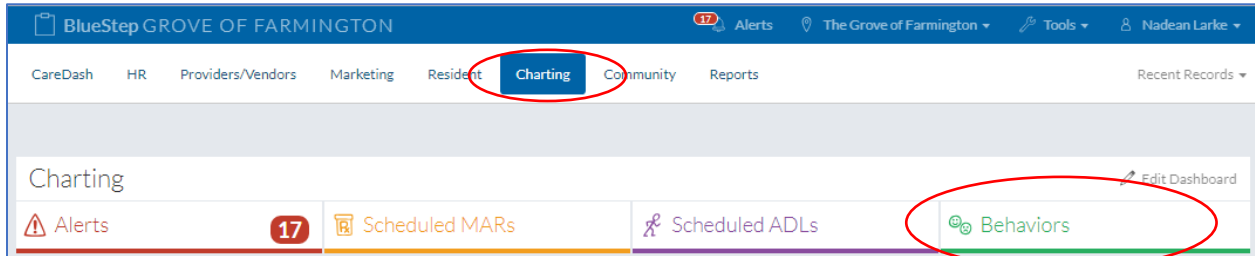

New Review Date

Review Note

Copy Note Copy Review Note to a New Nursing Note

Nursing Review allows for a 'New Review Date' to be entered or to copy the review notes forward to the nursing notes report.

The Behavior Tracking System found on the Charting dashboard, shows all residents with an active Behavior Plan. An Occurrence can be documented by selecting a resident and then the specific Behavior Plan. This will open a new Occurrence and allow staff to document Triggers and the effectiveness of Interventions along with any notes associated with the Occurrence.

Discontinue a Behavior Plan

To discontinue a Behavior Plan, navigate to the Discontinue section of the Behavior Plan. Behavior Plan Discontinue is specific to an individual resident and can be found in the resident record.

Refer to page 1- Behavior Plan Navigation

Enter 'DC Notes' in the provided box.

The screenshot shows a web interface for discontinuing a behavior plan. At the top, there is a tab labeled 'OCCURRENCE HISTROY'. Below it is the 'DISCONTINUE' section. This section contains a 'Discontinue Behavior' label with a 'Nurse Signature' checkbox. A 'DC Note' text area is provided for entering notes. Below that is a 'Copy Note' section with a 'Copy DC note to a new Nursing Note' checkbox. At the bottom right of the 'DISCONTINUE' section is an 'Add New Nursing Note' button. Below the 'DISCONTINUE' section is a 'NURSING NOTES' section with an 'Edit' button and a message 'No Entries Found'. At the bottom of the form are 'Save', 'Save and Refresh', and 'Cancel' buttons. A red asterisk and the word 'Required' are located at the bottom left of the form.

Nursing Notes:

The 'Copy DC note to a new Nursing Note' or 'Add New Nursing Note' is the ability to create or copy a Nursing Note from the Behavior Plan. This allows for a seamless process and eliminates extra steps and the need to navigate to the Nursing Note section in a resident's record.

Previous Nursing Notes pertaining to this Behavior Plan can be viewed at the bottom of the Behavior Plan.
