

Scheduling ADLs

If there are multiple buildings, these settings will need to be configured in each unit's site.

From HQ Home, click "Facility Record" under the Facility module...

Then select "CNA shift setup" from the left-hand nav.

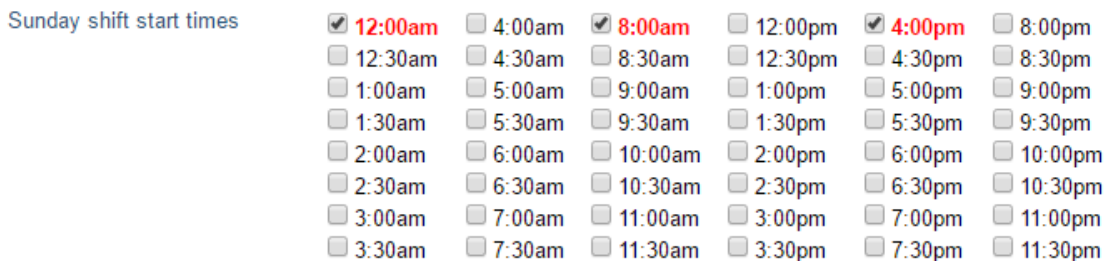

On the "CNA shift setup" form, select the ADLs from the "Scheduled ADL List" multi-select field, which your building will be charting.

Note: Our system formulas run at midnight, so a shift **MUST start and end at midnight.*

Next you will continue to fill out this form, by selecting the beginning shift times for each day of the week.

This will setup your CNA shift time ranges. Once you have selected your beginning shifts for each day, click Save.

The next step is to enable each day's time range. To do this, select the "CNA shift" form from the left-hand nav.

On this step, most facilities want every shift enabled. The quickest way is to click “Enable All”, once all checkboxes are selected, you can unselect the shifts you would like to disable. Once you have selected/unselected the shifts you need, click Save.

CNA shift

WARNING!! Disabling any shift on this form will delete that shift from any existing scheduled item for the resident or facility.

Enable All

Enabled Sa 12:00am - Sa 8:00am

Enabled Sa 8:00am - Sa 4:00pm

Enabled Sa 4:00pm - Su 12:00am

The next step in the shift setup is the “CNA shift piece”. Once the “CNA shift” has saved, select the “CNA shift piece” form from the left-hand nav.

This step can be tedious if you do not use the “Enable All” box. I suggest enabling every ADLs shift, then unselecting the shifts that will not be used.

- Enabled Sa 8:00am - Sa 4:00pm
- Enabled Sa 4:00pm - Su 12:00am

Click Save, once you have the shifts selected for each ADL. You have just finished setting up your CNA ADL shifts.

Your final step is to select which ADLs and which shifts should be charted. Go to the “Shift Setup – ADL/Nursing” form, from the left-hand nav...

Scroll down to the blue “ADL TIME DEFAULTS” section header...

First, on the “ADL List” field, select each ADL that is to be charted...

ADL List

Select items for charting. Unselected items will be removed from ADL charting.

- Bathing
- Exercise
- Mood/Behavior
- Nutrition
- Oral/Dental
- Phys Function
- Q2 Checks
- Restorative
- Restraint
- Side Rails
- Skin Check
- Smoking
- Toileting
- Vitals/Ht/Wt

If you choose to chart Toileting, Mood/Behavioral, Physical Functioning, Skin Checks, and/or Oral/Dental, then a new multi-select field with the shift times, previously designed, will open up. Select the times these ADLs are required and Save.
